

“Christ Over All”

POSITION ANNOUNCEMENT

PROGRAM DIRECTOR, MASTER OF SCIENCE-CYBERSECURITY

POSITION: John Brown University seeks a faculty member to direct and teach a new Master of Science in Cybersecurity. Responsibilities include, but are not limited to, teaching courses in several areas of cybersecurity such as ethics/cyber law, security policies and risk assessment, networking, security programming, security issues of operating systems, cryptography, monitoring tools, and penetration testing. Director responsibilities include administration of course offerings, load management, adjunct hiring and other program needs. Other responsibilities include advising students, capstone project oversight, and serving on University committees.

PROGRAM: Cybersecurity is a new master’s degree program at John Brown University (JBU). This program will be housed within the Division of Engineering and Construction Management. The program plan provides for the development of a high quality, regionally recognized degree path that will have appropriate external accreditation and associated assessment processes. This program will strive to educate students and practitioners in ethical and technical needs for this important career path while representing God in service to humanity. This program is developed from a position of strength with educational pathways from both undergraduate studies and strong industrial support.

JOHN BROWN UNIVERSITY: John Brown University is an interdenominational, independent, evangelical Christian university founded in 1919. Accredited by The Higher Learning Commission, JBU is widely recognized for academic excellence and holistic Christian character development, including prestigious national awards. JBU mottos “Christ Over All” and “Head, Heart, and Hand” bring focus to the JBU distinctive. The University has a strong tradition of excellence, one which contributes dynamically to the intellectual, spiritual, and professional effectiveness of its graduates. The financial position of the University is sound, with significant endowment and trust benefits. Including the degree completion and graduate programs, enrollment is approximately 2,400 degree-seeking students with residential enrollment operating at capacity. The 200-acre campus is part of a beautiful community in the third fastest growing county in the US near the foothills of the Ozark Mountains. All employees must be in agreement with our Faculty Employment Objectives and Articles of Faith. Faculty members are expected to take an active role in the spiritual life on campus and the spiritual development of students.

QUALIFICATIONS: An earned doctorate in Computer Science, Information Systems, Information Security, Applied Math or Cybersecurity is preferred; a master’s degree with work experience is required. Industry certifications such as CISSP, CISM, and SANs are a plus. This position will require a background check due to inherent security needs. Candidates should be willing to contribute to university life in areas such as academic advising, recruiting for the major, and committee service. The candidate should also be able to clearly articulate the integration of the Christian faith and science.

SALARY: A competitive salary exists which will be commensurate with training and/or experience.

IMPORTANT DATES: Position begins immediately. Screening process begins November 15, 2016, and continues until the position is filled.

TO APPLY: **Submit electronically** a letter of interest and vita to academicaffairs@jbu.edu, Office of Academic Affairs, John Brown University, Siloam Springs, AR 72761. Phone: 479.524.7129. **Women and minorities are encouraged to apply.**
